

To the Honorable, the Commissioners of Public Lands and Works

The Memorial of the Undersigned Puddlers, Miners and other residents on Bendigo

Respectfully Sheweth That your memorialists have heard with feelings of regret and astonishment that a petition has been presented to your Honorable Board from certain Storekeepers residing in this Township praying that a street known as McCrae Street should be extended and continue along the centre of the present alluvial workings on Bendigo Flat and which land is at present being worked by a large number of your memorialists both by Puddling Mills and otherwise

Second That your memorialists would respectfully submit to your Honorable Board the fact that this Flat has for some time been and still continues the resort of large numbers of alluvial Diggers in the summer in account of the never failing supply of water found there when the workings on the other parts of Bendigo are stopped from the scarcity of that necessary element in Digging operations and also the fact that your Memorialists are quite sure that by the aid of more powerful machinery the whole of the soil composing the said Flat will supply highly remunerative labour to great numbers for many years to come

Third That your memorialists would most earnestly and respectfully urge upon your Honorable Board that at a time like the present when there are so few places where payable ground can be found, the inexpediency of alienating from the Crown any land which is known to be auriferous becomes more apparent than ever more, especially in this case where to benefit some seven or eight storekeepers, a manifest injustice is sought to be perpetrated on some hundreds of Puddlers and Miners

Fourth That your memorialists would remind your Honorable Board that a road running parallel with the one now sought to be made has already been constructed at an enormous expense to the Road Board and which is at no point more than 500 yards from the proposed one and fully meets all the requirements of the district

Fifth That when a similar request was made to your Honorable Board some eight months ago it was declined on the simple ground that the land was auriferous and that previous attempts had been made by the same parties to induce your Honorable Board to form the said road which in each case have failed and your memorialists would respectfully submit to your Honorable Board that there are some one hundred more Puddling Mills on the Flat thus there was at that time each of which Mills employ from three to four men and an average three horses

Sixth That your memorialists would also draw the attention of you Honorable Board to the resolution unanimously carried by the local Court of Bendigo on this subject on the ----- day of September 1857

Seventh That while the abstraction of any portion of auriferous land would evidently be a great injustice to the whole of the increasing digging population it could only benefit some six or eight persons who have property likely to be increased in value by the extension of McCrae Street

As the continued agitation of this question has become irksome to your memorialists from the expense and loss of time occasioned by so frequently preparing and signing memorials to your Honorable Board Your memorialists would therefore pray your Honorable Board to finally settle this vexed question by signifying their intention of keeping the said Flat for the use of the digging population so long as it is known to be auriferous
