

SURNAME LIST

This surname list has been compiled using the spelling exactly as it was written in the voters' rolls.

When compiling the list I found that the alphabetical order was sometimes out of balance. So it is suggested that further scrolling may be necessary if you can't find the name you are looking for.

Also it is suggested to search the **Executors or Trustees** as you may find a relative listed under these titles.

Every effort has been made to be as accurate as possible but mistakes do happen so it is advisable to always check the original source.
